

**MATHEMATICS SCHEME OF WORK FOR PRIMARY FIVE FOR TERM ONE**

For more schemes of work, visit [www.uganda.madpath.com](http://www.uganda.madpath.com)

W K	P D	THEME	TOPIC	SUBTOPIC	CONTENT	SUBJECT COMPETENCE	LANGUAGE COMPETENC E	METHODS	LIFE SKILLS	T/ AIDS	ACTIVITY	REF
1	1	SET CONCEPTS	SETS	Intersection of sets	Intersection of sets. Given the venn diagram below. Find the intersection set  Find: i) $P \cap Q$ ii) $n(P \cap Q)$ <u>Solution</u> i) $P \cap Q = \{4, 5\}$ ii) $n(P \cap Q) = \underline{2 \text{ elements}}$	- The learner identifies an intersection set.  - Finds the number of elements in the intersection set.  - Identifies a symbol for intersection sets	- The learner identifies an intersection set.  - Spells the word intersection	Brain storming   				

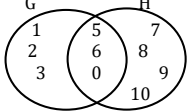

For more schemes of work, visit [www.uganda.madpath.com](http://www.uganda.madpath.com)

	3			Difference or complement of sets 	-	-					
	4	set concept	sets	comparing of sets Given the venn diagram below, study it and answer the questions that follow. 	- Compares the given sets - Counts elements	- Reading the given words.  - Pronounces the new words correctly	Guided discovery  Brain storming	Effective communication  Critical thinking	A chart  Chalkboard illustration	Counting  drawing  Adding	Mk bk 6 pg 23

	5			<p>Study the venn diagram below showing how people like English and Maths.</p>  <p> <math>n(E) = 7 + 4 = 11</math>  <math>n(M) = 4 + 12 = 16</math>  <math>n(U) = (7 + 4) + (12 + 5)</math>  <math>= 11 + 17</math>  <math>= \underline{28}</math> </p>	<p>- Interprets the venn diagram correctly</p> <p>- Solves problems about venn diagrams</p>		Explanation	Confidence				
--	---	--	--	--	---	--	-------------	------------	--	--	--	--

	6			<b>Subsets</b> <u>Subsets:</u> A subset is a smaller set formed from a bigger set. Symbol for subsets "C" Forming subsets. <u>Example</u> Set A = {a, b} Form all possible subsets from set A $A = \{a, b\} = \{ \} - \{a\} - \{b\} - \{a, b\}$ Note: i) An empty set is a subset of every set. ii) Every set is a subset of itself.	- defines a subset - draws the symbol for a subset - lists down possible subsets from a given set	- spells the word subset. - pronounces the word subset correctly.	Guided discovery Brain storming	Critical thinking Logical thinking	flash cards	picking listing	
2	1			<b>Finding the numbers of subsets</b> Finding the number of subsets Example Set P = {1,2,3} Find the number of subsets in set P i) <u>By listing</u> Set P = {1,2,3} = { }, {1}, {2}, {3}, {1,2}, {1,3}, {2,3}, {1,2,3} <u>Set P has 8 subsets</u>	- finds the number of subsets by using the formula.		Explanation			writing	
	2			ii) <u>By formula</u> Number of subsets = $2^n$ where "n" stands for the number of elements. set P = {1,2,3} = $2^n$ $= 2^3$ $= (2 \times 2) \times 2$ $= 4 \times 2$ $= 8$ subsets	- multiplies the numbers correctly.		problem solving	Confidence		counting	

For more schemes of work, visit [www.uganda.madpath.com](http://www.uganda.madpath.com)

3				<b>Difference of sets</b> <u>Example:</u> Study the venn diagram below.  Find i) $G - H$ $G - H = \{1, 2, 3\}$	- finds the complement and difference of sets.  - finds the number of elements in the difference of sets	- defines difference of sets.  - pronounces the word complement correctly.	Question and answer  Brain storming	Effective communication		Counting members	MK MTC bk4 pg 15
				ii) Find number of members in set $H - G$ $H - G = \{7, 8, 9, 10\}$ $n(H - G) = \underline{4 \text{ elements}}$	-	-	Guided discovery				

	4			<p><b>Decribing regions on a venn diagram</b></p> <p>Description of Regions on a venn diagram</p> <p>a) Describe the shaded region.</p> <p></p> <p>i) Shaded <math>X \cap Y</math>  ii) Un shaded <math>(X \cap Y)^1</math></p> <p></p> <p>i) Shaded Set A  ii) Un shaded Set <math>B - A/A^1</math></p> <p></p> <p>i) Shaded – Set Q only  ii) Un shaded – Set P</p>	<p>- draws venn diagrams</p> <p>- Identifies the shaded regions</p> <p>- identifies the un shaded regions</p>	<p>- Interprets set symbols correctly</p>				<p>A chart showing shaded regions</p>	<p>Shading Drawing venn diagrams</p>	<p>Collectio n MK bks</p>
--	---	--	--	--	---	---	--	--	--	---------------------------------------	--------------------------------------	---------------------------

	5			Probability	<p>Probability (Tossing) Probability is the measure if a chance. Example A dice has 6 faces (1,2,3,4,5,6) Sample space = 6 Prob of getting a 2 on top = <math>\frac{2}{1,2,3,4,5,6}</math> = <math>\frac{1}{6}</math></p>	<p>- defines the word probability.</p> <p>-</p>	<p>-reads and pronounce s the word probability</p> <p>-reads the word problem</p>			A dice	counting	MK pupils bk 6 pg 26-27
					<p>A coin has 2 faces = HT Sample space Prob of getting a head on top = = <math>\frac{H}{HT}</math> = <math>\frac{1}{2}</math></p>	<p>- identifies the sample space and the desired chance.</p> <p>-</p>	-					
	6			Random picking	<p>Random picking Example: In a box, there are 6 ripe mangoes and 7 un ripe mangoes. a) i) ripe mango = <math>\frac{\text{No. of events}}{\text{sample space}}</math> = <math>\frac{\text{No. of ripe mangoes}}{\text{Total no.}}</math> = <math>\frac{6}{6+7}</math> = <math>\frac{6}{13}</math> b) Un ripe mango -</p>	<p>- defines random picking</p> <p>- finds probability of events</p> <p>- adds numbers corrects</p>	<p>- reads the word problems</p> <p>- reads and pronounces the word random picking</p>	Guided discussion	Sharing	Accuracy		MK book 5 pg 24-25

3	1	NUMERACY	WHOLE NUMBERS	Forming numerals from digits	<p>A number is the idea of quantity. A numeral is a symbol that represents a number. Example: Given the digits 4,5,6, use them to form all possible numerals. Numerals are 456, 465, 546, 564, 654, 645</p> <p>a) Find the sum of the biggest and smallest numeral formed. Sum = <math>456 + 654</math> = <u>1110</u></p> <p>b) Write the even numerals formed. <u>456, 546, 564, 654</u></p> <p>c) Find the range of the biggest and the smallest numerals formed.</p>	<p><u>The learner;</u></p> <p>- finds the sum of the largest and the smallest numerals formed.</p> <p>forms numerals</p>	- reads and uses the words correctly	<p>Guided discovery</p> <p>Brain storming</p> <p>Problem solving</p>	<p>Critical thinking</p> <p>Effective communication</p>	chalkboard illustrations	defining a numeral and a number	
---	---	----------	---------------	------------------------------	---	--	--------------------------------------	--	---	--------------------------	---------------------------------	--

H th	T th	Th	H	T	0										

	5			<b>Writing in figures</b> <u>Writing in figures</u> <u>Example</u> 1. Three thousand, five hundred thirty six. Three thousand   3000 Five hundred     500 thirty six        + 36 <u>3536</u> 2. Eight hundred four thousand, four hundred three. 804,000 + 403 <u>804,403</u>	The learner writes numbers in figures.	- The learner reads the number in words	Guided discovery  problem solving	Effective communication  Critical thinking	Chalkboard illustration	Reading in words  Writing in figures	New MK pupils bk 5 pg 29-31											
	6			<b>Expanding numbers</b> <u>EXPANDING IN EXPONENTS</u> a) Expand 49872 using <table><tr><td>10<sup>5</sup></td><td>10<sup>4</sup></td><td>10<sup>3</sup></td><td>10<sup>2</sup></td><td>10<sup>1</sup></td><td>10<sup>0</sup></td></tr><tr><td>4</td><td>9</td><td>8</td><td>3</td><td>7</td><td>2</td></tr></table> Expand using powers of ten. =(4x10 <sup>5</sup> ) + (9x10 <sup>4</sup> ) + (8x10 <sup>3</sup> ) + 3x10 <sup>2</sup> ) + (2x10 <sup>0</sup> ) <u>Note:</u> Place value form and value form should be considered.	10 <sup>5</sup>	10 <sup>4</sup>	10 <sup>3</sup>	10 <sup>2</sup>	10 <sup>1</sup>	10 <sup>0</sup>	4	9	8	3	7	2	The learner expands given numbers in values and place values	- reads and writes numbers that have been expanded		Logical flow of ideas	expanding reading	
10 <sup>5</sup>	10 <sup>4</sup>	10 <sup>3</sup>	10 <sup>2</sup>	10 <sup>1</sup>	10 <sup>0</sup>																	
4	9	8	3	7	2																	

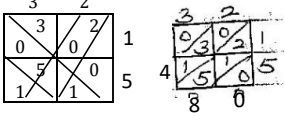

For more schemes of work, visit [www.uganda.madpath.com](http://www.uganda.madpath.com)

4	1			Writing in short	<u>Writing in short or finding expanded number</u> Example: Find the number that has been expanded. a) $20,000 + 700 + 6$ $= 20,000$ $\quad 700$ $\quad + \quad 6$ $\hline 20,706$		-					MK bk 5 pg 32 Oxford Primary Maths bk5 pages 12-18 Underst anding Maths bk5 pg 36
	2		Rounding off whole numbers	<b>Rounding off whole numbers</b>	<u>Rounding off whole numbers</u> Rounding off simply means the estimate to the nearest.	rounds off whole numbers	- reads and pronounces the words correctly	brain storming		Number cards	Rounding off whole numbers	
	3				<u>Example</u> 1. round off 654 to the nearest Hundred $\begin{array}{r} 6 \overline{) 654} \\ +0 \phantom{0} \\ \hline 600 \end{array}$ 2. Round off 52 to the nearest Tens. $\begin{array}{r} 5 \overline{) 52} \\ +0 \phantom{0} \\ \hline 50 \end{array}$	- identifies the place values of digits	-				Adding numbers	Oxford Maths bk 5 pg 20-24

	<b>4</b>		Whole numbers	<b>Roman numerals</b>	Hindu-Arabic to Roman numerals Basic Roman numerals 1 – I                      100 – C 5 – V                      500 – D 10 – X                      1000 – M 50 – L <u>Example</u> 1. Write 58 in Roman numerals. 58 = 50 + 8 = L + VIII = <u>LVIII</u> 2. Write 29 in Romans 29 = 20 + 9 = XX + IX = <u>XXIX</u>	- Writes Hindu-Arabic numerals	- reads and pronounces the words correctly	Guided discovery	Effective communication	Number cards showing Hindu-Arabic and Roman numerals	expressing Hindu-Arabic to Roman numerals	MK bk 5 pg 38
	<b>5</b>					-	-					
	<b>6</b>					-	-					

5	1			<b>Application of Roman Numerals</b>	Application of Roman numerals Example: Nakku is twenty seven years old. Write her age in Roman symbols. Nakku is 27 years old (20 + 7) years old (XX + VII) years old <u>XXVII years old</u>	<u>The learner:</u> - solves problems involving Roman numerals	- Reads and interprets questions	Explanation	Adding numbers	Chalkboard illustration	Problem solving	New MK pupils bk 5 pg 47-56
	2			<b>Operation on numbers Addition and subtraction</b>	Addition and subtraction of whole numbers Examples: a) Add: 473 442 + 369 215 ----- 842 257  b) Find the sum of 828,194 and 111,428  c) Find the difference between 48,765 and 11413 <u>solution</u> 48,765 - 11,413 ----- 37,342  d) Okiria had sh. 25,970, then he gave Akol sh. 12,585. How much did okiria have left? Had sh. 25,970 Gave out - sh. 12,585 sh. 12,385	<u>The learner:</u> Adds and subtracts numbers including word problem	<u>The learner:</u> - identifies the key words used in addition and subtraction of whole numbers	Guided discovery  Group work	Subtracting numbers  Reading statements	use of counters	effective communication  Explanation	understanding Maths bk 5 pg 40-50
