38. Which human body organ is used for tasting food?

39. Name any **one** example of a cereal crop.

40. What term is used to mean the covering of the garden with dry plant materials?

SECTION B:(60 Marks)

41. (a) Name **two** components of air.

(i) _____

(ii) _____

(b) Write **two** uses of air to man.

(i) _____

(ii) _____

42. (a) State **two** ways how food can be preserved.

(i) _____

(ii) _____

(b) Name **one** group of germs that makes food to go bad.

(c) In which **one** way is food preservation important?

43. (a) State **two** ways how water is useful during germination.

(i) _____

(ii) _____

(b) Apart from moisture, mention **two** other conditions necessary for germination.

(i) _____

(ii) _____

44.

The diagram below shows a natural process. Use it to answer questions that follow.

(a) Name the natural process shown in the above diagram.

(b) Name the physical process marked:

(i) B _____

(ii) C _____

(c) State **one** use of rain water at home.

45. Name **one** disease spread by the following vectors:-

(a) Female anopheles mosquito _____

(b) Cockroach _____

(c) Blackfly _____

(d) Tsetsefly _____

46. (a) Give **two** reasons why a casualty should be given first aid.

(i) _____

(ii) _____

(b) Write **two** qualities of a good first aider.

(i) _____

(ii) _____

47. (a) State **two** examples of food rich in vitamins.

(i) _____

(ii) _____

(b) What deficiency disease is caused due to lack of,

(i) Proteins _____

(ii) Carbohydrates _____

48. (a) Which term is used to describe living organisms which spread germs from one place to another?

(b) Mention any **two** places where vectors are found.

(i) _____

(ii) _____

(c) In which way are vectors dangerous to people?

49. The diagram below shows a flower. Study it and use it to answer questions that follow.

- (a) Name the part marked;
- (i) A _____
- (ii) B _____
- (b) What does part B develop into after fertilization?
- _____
- (c) State **one** use of flowers to people. ☐
- _____
50. (a) Write ORS in full.
- _____
- (b) Mention the solvent used in making ORS.
- _____
- (c) State any **one** cause of dehydration in babies.
- _____
- (d) Give **one** sign of dehydration in babies.
- _____
51. (a) State any **two** living things that live in the soil.
- (i) _____
- (ii) _____
- (b) Besides soil, give any **one** other habitat for animals.
- _____
- (c) Why do people grow plants in their compounds?
- _____

52. (a) Write down **two** breeds of rabbits.

- (i) _____
- (ii) _____

(b) Give any **two** benefits of keeping rabbits.

- (i) _____
- (ii) _____

53. (a) Give any **two** examples of intestinal worms.

- (i) _____
- (ii) _____

(b) State **two** ways worms enter our bodies.

- (i) _____
- (ii) _____

54. (a) Give **two** ways of keeping our teeth clean.

- (i) _____
- (ii) _____

(b) Write down any **two** diseases of teeth.

- (i) _____
- (ii) _____

55. The diagram below shows a lifecycle of a vector.
Study it and use it to answer questions that follow.

(a) Name the lifecycle shown in the diagram above.

(b) Name the stages of growth marked.

- (i) X _____
- (ii) Z _____

(c) How can we control diseases spread by cockroaches?
