SECTION B:

51. Read the passage below carefully and then answer, in full sentences, the questions that follow.

Newspapers are a very important tool in communication because they keep information for a very long time unlike radios and televisions. That means that one newspaper can be used many times. Unfortunately, people who do not know how to read do not benefit from newspapers.

Most newspapers such as the Chief Monitor, The Old Vision, Blue Pepper and The Sun are published in English. This is because most people know English. There are some newspapers published in local languages for people who do not know English. These newspapers include Buke which is published in Luganda, Orum which is published in Runyakitara, Rupi which is published in Luo and Yamp which is published in Kinyarwanda.

Journalists move to different parts of the world to collect information. This information is then edited and published in newspapers. The newsvendors sell the newspapers to different people in the country. Customers usually buy newspapers basing on the headlines. The newspapers with the most interesting headlines on the front page attract the most customers. So, editors write very attractive headlines in order to market their newspapers.

I, personally, enjoy reading The Old Vision because it has pages that contain children's articles. I love reading the articles written by children because they remind me of my childhood. Children enjoy reading their articles too.
